

Mockup Review

Creative Director: Adejola Ogunsan

Designer: Leon Zhao

Notes:

I really like how you've fleshed out the website so far. I love the implementation of the logo and the color scheme.

I have a few notes

- Making the image sticky on scroll would make the page look less empty if there is more content when you scroll further down the page.
- Also, using google chrome I could see that the words get cut off on the right side of the nav bar, if the window gets small. Maybe make the text slightly smaller, so the words can be visible.

Overall

- This looks awesome, thank you!
