

Mockup Review

Creative Director: Adejola Ogunsan

Designer: Leon Zhao

Mockup A

- I like the consistency with padding throughout the page. It keeps the page consistent and readable
- I also like the color scheme and image treatment that you chose to use here
- I think that a sans font for the body paragraph would blend better with the header

Mockup B

- I like the image treatment that you chose here and I agree with the font choices that you made here
- I think that the padding between the edges of the page and the images could be improved and that the placement of the images on the first page could be a little more harmonious
 - For example, even if the images overlap, having consistent padding between the text on the page and the images makes for a more cohesive design

Overall

- Maybe we should do a logo like the Professor mentioned to help orient the user.
- Also I prefer **Mockup A** to be developed. Thank you!
